Dear Mr. Winter,

Sorry I was away for a little while, and could not contact you. I have well received the exhaust line and springs for the front fork for my R80G/S. I am going to install these parts this week and tell you my feelong later. So far I find the parts very nice looking and they seem to be of very good quality indeed.

Thank you, I 'll be back.

Regards,  
Ben Gueroult
